

Security Management Stage 1: Security Coordination and Design

7th – 11th June 2026

Holiday Inn Hotel, Muscat, Oman

About the course

Delivered by our recognised security management trainers, this course is a comprehensive introduction to the essentials of corporate security management. Suitable for all levels, the training is perfect for those wishing to understand the fundamentals of security.

It is designed to provide security managers, supervisors, and those for whom security is one of a number of responsibilities, with the knowledge and confidence necessary to manage a successful security management function. You will learn the fundamentals of security management with an emphasis on risk methodology and designing appropriate security measures.

Identifying assets, threats and vulnerabilities leads to the design of physical security countermeasures. The course focuses on the core requirements to secure people and other critical assets, including risk assessments, risk matrix creation, and how to prepare a business case for security provisions to a senior management team.

This programme takes the form of lectures, workshops, discussions and exercises. Learners are placed into groups and are tasked to solve typical security problems together.

The Company

We are the leading international providers of security management training, specialising in the fields of security management, offering accredited training courses designed for managers, supervisors and practitioners.

Strongly supported by universities and professional bodies such as the Security Institute and ASIS International, our courses provide the latest thinking and best practices techniques, combined with academic knowledge that is required for today's security professional.

We offer flexible course delivery through distance e-learning, bite-size courses, virtual training via Zoom and face-to-face classroom based training. In addition we offer a comprehensive in-house for companies requiring a more tailored training programme. We also provide the distance learning MSc in International Security and Risk Management delivered in partnership with the University of West London.

Part of the renowned Linx International Group, delivering security consultancy and training globally, we believe that our clients deserve the very best training experience. Whether you're an experienced Security Manager looking to specialise in a particular field, or have a military or policing background with a desire to move into the private sector, working with only the very best trainers, we ensure our learners gain their qualifications in an interactive, engaging and motivating training environment – and enjoy their learning experience.

Instructor Profile

John Murphy

John has over 40 years' experience of national level risk management, having assessed risks and taken mitigating action to safeguard UK interests abroad and in the UK. He has worked in the Middle East and Pakistan managing preparation and prevention risk activities, which necessitated a full understanding of the impact upon UK interests and international partners. He has also worked for a major oil company advising on commercial risk management. As a skilled trainer, he has trained and developed colleagues and Middle East officials in all aspects of risk awareness and management work and mentored senior Middle East officials in safe and secure business operations while advising on the consequences of political risk.
