

Security Management Stage 2 – Tactical Security

26th – 30th October 2025

Holiday Inn Hotel, Muscat, Sultanate of Oman

About the course

This course follows on from the 'Security Management – Stage 1' course and is designed to continue to broaden the learners' scope of knowledge related to modern security management. Learners will be introduced to a range of topics designed to enhance their ability to develop strategy and relevant mitigation measures, make recommendations and offer solutions whilst understanding the budgetary implications.

This 5 day course run by PerpetuityARC Training (formerly ARC Training International) is a tutor led, classroom based course where delegates will work in syndicates to provide feedback on a range of exercise scenarios.

Who will benefit

This course will benefit Security Managers, Security Coordinators and anyone seeking to further their career in Security Management.

Whether you're an experienced Security Manager looking to specialise in a particular field, or have a military or policing background with a desire to move into the private sector, working with only the very best trainers, we ensure our learners gain their qualifications in an interactive, engaging and motivating training environment – and enjoy their learning experience.

Instructor Profile

John Murphy

John has over 40 years' experience of national level risk management, having assessed risks and taken mitigating action to safeguard UK interests abroad and in the UK. He has worked in the Middle East and Pakistan managing preparation and prevention risk activities, which necessitated a full understanding of the impact upon UK interests and international partners. He has also worked for a major oil company advising on commercial risk management. As a skilled trainer, he has trained and developed colleagues and Middle East officials in all aspects of risk awareness and management work and mentored senior Middle East officials in safe and secure business operations while advising on the consequences of political risk.
